

TERMS OF REFERENCE FOR THE APPOINTMENT OF A CONSULTANT TO DEVELOP A CONSOLIDATED NATIONAL FRAMEWORK FOR AIDS COUNCILS STRENGTHENING

1. Introduction

The South African National AIDS Council (SANAC) Trust seeks to appoint a consultant to review, consolidate as well as layout, design & print the consolidated framework for AIDS councils strengthening. This task will support overall the endeavour to strengthen and improve the functionality of all the subnational AIDS Councils structures (Provincial, District and Local AIDS Councils and their secretariats) to fulfil their mandates effectively and efficiently in coordinating, monitoring and evaluating the HIV, TB and STIs response.

2. Background

The South African National AIDS Council (SANAC) was established in January 2002, and it is the custodian of the National Strategic Plans for HIV, TB and STIs (NSP), which guide the country/, approach and commitment to help achieve the goals set out in the NSP.

Since establishment of SANAC, a cascade of AIDS Councils has been established in South Africa. The NSP makes provision for the Provincial Council of AIDS (PCAs) and recommends that their structure and membership be like that of SANAC however, the provincial realities must determine the exact composition and size. To date, Provincial Councils on AIDS (PCA), District and Local AIDS Councils have been established to coordinate, implement, monitor and evaluate progress on implementation of the subnational plans (PIP, MDIPs and local plans); and to advise the Provincial Executive Councils and the Mayoral Councils on HIV, TB and STI policies and programmes.

The NSP recommends building the capacity of Provincial, District and Local AIDS Councils as they are SANAC structures that enable implementation at the local levels of the NSP through Provincial Implementation Plans (PIPs) and Multi-sectoral District Implementation Plans (MDIPs). The District AIDS Councils are well placed to ensure that system strengthening efforts, including multi-sectoral quality improvement and human resources strengthening, are occurring at facility and sub-district level as mandated by the NSP. These are supported by the SANAC Secretariat to perform this function effectively. SANAC has a responsibility for developing tools that will capacitate and strengthen the functionality of the Provincial, District and Local AIDS Councils. This role includes establishing and maintaining National PCA Secretariat Forum (PCA HoS) and Provincial AIDS Councils Secretariats Forum to facilitate this process.

The South African National AIDS Council (SANAC) is seeking the services of a consultancy firm for the Development of the Consolidate National Framework for AIDS Councils Strengthening. The Functionality Framework will be comprehensive and inclusive and will take into consideration all the AIDS Councils and their stakeholders

at provincial and district level including SANAC stakeholders. It is envisaged that the Consolidated National Framework for AIDS Councils Strengthening will enhance the AIDS Councils efforts towards meeting the goals and objectives of the National Strategic Plan for HIV, TB and STIs.
